PANTAENIUS LAUNCHES ANNUAL SKIPPER ACCIDENT INSURANCE

Global cover, simple pricing and year round protection for skippers and captains

Pantaenius Yacht Insurance today announces the launch of its new Annual Skipper Accident Insurance, providing private and professional skippers around the world with a single, year round policy that covers the financial consequences of accidents resulting in disability or death.

Comprehensive cover, one clear policy

The new insurance offers protection for death and disability arising from watersports activities, including benefits that go beyond standard personal accident policies. Medical emergency expenses are reimbursed up to €50,000 within Europe and up to €100,000 outside Europe. Search and rescue operations, as well as patient transport at sea, are covered up to €50,000.

Clear and competitive premiums

Annual premiums start at just €56.25 (net). Three levels of cover are available depending on the selected benefits, and unpaid crew can be included optionally. For example:

A Death Benefit of €37,500 and Disablement Benefit of €75,000 corresponds to a net premium of €56.25 for a private skipper (or €74.81 with unpaid crew), and €157.50 for a professional skipper (€209.48 with unpaid crew). Higher benefit levels are available at additional cost.

Why an annual policy matters

"When skippering boats several times a year, single trip policies can quickly become impractical," says Martin Baum, Managing Director of Pantaenius Yacht Insurance. "Our annual solution eliminates the uncertainty: your cover is in place, and you pay one premium for year-round peace of mind."
