

**I ORDERED A BARE SPACE IN FRONT OF MY BOATS ON THE NORTH JETEE
OF VIEUX PORT.
ONLY ON THE NORTH JETEE, THE SOUTH JETEE IS UNDER CONSTRUCTION**

**Your project will have to be sent to the company mandated by the Yachting Festival accompanied by the calculation note established by a consulting firm:
standdeco@cannesyachtingfestival.com**

**The final validation of the project will be done on site by the
Yachting Festival's safety officer.**

TECHNICAL CONSTRAINTS TO BE RESPECTED

- A 3m passage is mandatory every 10m.
- Mandatory an IN and an OUT accesses.
- Please note, if the stand has a neighbouring stand, passage is mandatory through a sliding door-style opening system only.
- A 2m wide path, between the quay and the front of your structure must be clear at all time. You can install furniture and plants on this way, that must be easily movable to let a working zone for fire brigades in case of disaster
- Access must be installed in a judicious way and near each end of the space.

- The water traps and the electrical switchboxes must remain accessible at any time. You can make trapdoors with a sticker indicating their location.

It is prohibited to drill into the quay.

**For any further information, our technical
department remains at your disposal.
