

## I ORDERED A TENT

### WHAT I HAVE TO DO

- Send my complete stand project to the company mandated by the Cannes Yachting Festival:  
standdeco@cannesyachtingfestival.com  
The final validation of the project will be done on site by the Festival's safety officer.
- Get my project validated by a specialized organisation for health and safety issue, in case of modifications of the structure.

### WHAT I CANNOT DO

- Install my own fascia or frontage.
- Drill into the metalwork, flooring system and/or any element of the structure.
- Block or remove the curtains of the tent. **They must remain accessible at all time.** You must be able to close them every night and/or in case of strong wind.

## I WISH TO INSTALL A FASCIA TO MY TENT

It is compulsory to order the facade dressing (raw wood painted in white) from the organizer to meet safety regulations.

SEE TECHNICAL REGULATION AND ORDER FORM FOR SPACES UNDER TENTS; FITTINGS ON DEMAND

**CAUTION: should you not have respected the technical regulations, the organiser reserves the right to have all or part of the stand dismantled.**

**For any further information, our technical department remains at your disposal:  
[service.technique.yachting@rxglobal.com](mailto:service.technique.yachting@rxglobal.com).**
